“I thought I won’t have a life anymore. I am a town councillor and a member of the local drama group... all I am going to be doing now is sitting at home waiting all day for my next set of care.

The greater the reduction, the less quality of life I will have. It feels like as long as I am fed and watered then the rest of my life can be ignored.

The suggestion of continence pads was a disgrace, I am not incontinent. I feel I am being made more disabled than I actually am.”

**THERE IS
ALWAYS HOPE**

Social Care Future

- A movement about good, ordinary lives
- With people at the heart
- Not an organisation – a place to come together
- Starting with a vision for the future and focused on how to get there
- Ambitious – about big change even if it starts little

Social Care Future's Vision

We all want to live in the place we call home with the people and things that we love, in communities where we look out for one another, doing things that matter to us.

That's the social care future we seek. #socialcarefuture

The Future

5 Key Changes to Unlock an Equal Life

1. Communities where everyone belongs
2. Living in the place we call home
3. Leading the lives we want to live
4. More resources, better used
5. Sharing power as equals

Shift the money

Community

When organised well, social care helps to weave the web of relationships and support in our local communities that we can draw on to live our lives in the way that we want to, whatever our age or stage in life.

That's the **#socialcarefuture** we want to see.
